

**Pica-Dry Longlife Automatic Pencil**

- Its new "Power Lock" mechanism inside is a milestone in the development:
- The duration of the lead holding power has been tripled
- The longevity of the product once more has been noticeably improved
- The new Pica-Dry: the marking tool for professional craftsmen
- Extremely sustainable thanks to its refill ability
- Its for all graphite lead 2B marks on almost any surface, whether dry, wet, glossy, rough or dusty
- Most versatile capabilities due to special leads: for bright or dark surfaces, in water soluble or water jet resistant
- Wipe clean from glossy surfaces with a damp cloth
- Barrel with roll stop

LONGLIFE CAP® with extra strong clip and robust sharpener for long term use

Push-button as umbrella cap and barrel with sealing ring for maximum all-round protection against external influences.

Use the mark for precise drilling. The pigment simply wipes away without leaving residue.

Marks on almost any surface

Wipe clean from glossy surfaces

Simple to refill with the replacement lead.
